

Adapter KF-A

Application

Reducing of KF-flange-units for the transfer of powder material and granules as well as multi-phase-flows in continuous / semi-continuous processing in aero-dynamic system:

- transition without shading
- steep cone-angle

Dimensions					
large flange	DN100	DN63	DN50	DN40	DN25
reduced flange	DN63	DN50			
		DN40	DN40		
		DN25	DN25	DN25	
unit length -A- [mm]		55	45	50	40
net weight approx. [kg]	1,3	0,8	0,3	0,2	0,1g
ports	standard-KF				
material	stainless steel 1.4301				
definition example	adapter DN63-DN25x55
