

Gold-Flakes Au*

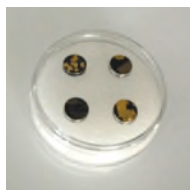

processed by Simoloyer®-Technology

Application	Advantages
• effect pigments • thermal / electrical conductivity • decoration / ornaments • ...	• excellent aspect ratio • cost effective • low Fe content

	
typical Au-flake (SEM)	typical Au-flake (SEM)

Characteristics		
thickness [µm]	diameter/thickness, ratio	Sieve analysis
up to 1 µm, depends on application	up to 100	100% < 45µm (min)

Packaging: usually in small quantities
